

**FOR IMMEDIATE RELEASE**

**GeoTechVision Enterprises Limited to host seminar for the Manufacturing Industry**

June 8, 2016

**GeoTechVision** in collaboration with **Leica Geosystems** will host a **One-Day Seminar and Workshop; Tuesday, June 21, 2016; 9:00 a.m. to 4:00 p.m.** at the **Technology Innovation Centre, University of Technology, Kingston** under the theme **“Geospatial Technology- Saving Resources, Increasing Efficiency”**.

With close to 200 years of pioneering solutions to measure the world, Leica Geosystems is an industry leader for equipment used worldwide by professionals to capture, analyse and present spatial information. Companies in a variety of industries - aerospace and defence, safety and security, construction and manufacturing, have come to trust Leica to fill their geospatial needs.

GeoTechVision Enterprises Limited - a leader in the geospatial industry, is Leica’s retail partner for the Caribbean region. With offices located in Kingston, Jamaica and Georgetown, Guyana, the team of passionate and experienced professionals is committed to providing spatial technology solutions and products of the highest quality.

This seminar will show how 3D laser scanning technology can stimulate operational efficiency across multiple industry segments. The workshop will feature live demonstrations of 3D Laser scanning. Mr Joel Hurt, a team lead and subject matter expert specializing in the industrial plant industry in North America, Central America and the Caribbean will be a guest presenter. He has over 20 years of experience working in the area of plant design and the construction industry.

The seminar and the technology on display will benefit a variety of industries such as manufacturing, engineering, archaeology, crime and safety and environmental interests.

We encourage all who have interest in these areas to come and benefit from the rich information and demonstrations.
