Press Release

Spatial Innovision Limited Announces the appointment of GeoTechVision in Guyana as an Authorized Reseller for ESRI Products in Guyana and the Eastern Caribbean

Reseller to sell in Guyana, Trinidad & Tobago, Barbados, St. Lucia, St. Vincent & the Grenadines

Kingston, Jamaica, October 28, 2014: Spatial Innovision Limited the exclusive distributor for Esri products in the Caribbean, is pleased to announce the agreement it reached with GeoTechVision in Guyana to become an authorized reseller for Esri products in the following countries: Guyana, Trinidad & Tobago, Barbados, St. Lucia and St. Vincent & the Grenadines. This move is expected to widen our customer base within the region.

The partnership was announced during the opening address of the 7th URISA Caribbean Conference recently held in Curacao.

“Spatial Innovision is excited about this partnership as it provides an opportunity to broaden our market by exposing new users to world class technology at competitive pricing through GeoTechVision’s channel. As leaders in the development of geospatial solutions in the region we welcome GeoTechVision to the Eastern Caribbean as Authorized Resellers of Esri products and will work closely with them to unearth untapped applications of GIS,” said Roshaun Clarke, Marketing Manager, Spatial Innovision Limited shortly after announcing the partnership in Curacao at the URISA Caribbean Conference.

“Through this partnership GeoTechVision will now offer the industry leading software coupled with our existing business process specific integrated solutions that best meets the needs of our clients. We look forward to working with Spatial Innovision.” said Valrie Grant, Managing Director, GeoTechVision, after signing the agreement.

About Spatial Innovision Limited

Spatial Innovision has over 15 years of GIS and GPS Solutions implementation project experience. We are a highly skilled, motivated company, powering businesses to the next level. Our impressive array of in-house resources and cadre of personnel positions us as an industry leader. Spatial has been an advocate for the widespread implementation of GPS solutions throughout the Caribbean region serving over two hundred (200) government agencies, non-government organizations and private businesses. Since its inception, Spatial Innovision Limited has worked alongside various public and private sector businesses locally

and regionally in transforming their mapping operations to leverage their spatial information for realizable business benefits.
