

GEOTECHVISION TECHNOLOGY EXPO 2018

GeoTechVision in collaboration with **Marlie Technology Park** will be hosting its **Technology Expo** November 12-13, 2018 at the Marlie Technology Park facility in Old Harbour, Jamaica, under the theme “Embracing Smart Change”.

We are at the edge of the Fourth Industrial Revolution (4IR). The 4IR is characterized by a fusion of technologies that are blurring the lines between the physical and digital world. Location data will be a key driving force in the 4th industrial revolution and its amalgamation with IOT, Big Data AI and Blockchain provides insight into the future of the space.

Our Technology EXPO will provide insights on the disruption that 4IR will bring in our lives. EXPO talks will touch across technologies and industries aiding the important transition towards a Green economy.

The Future is digital! Digital tools and technologies are the currency of modern businesses today. Citizens and consumers are demanding smarter

solutions. Tech Expo brings together the Tech Community for 2 days to showcase, exchange, learn, deliberate and explore the latest technology innovations that are having big impact on our green transition and creating a smarter future.

Get answers to:

- How to leverage Big Data, IoT, and AI using geospatial technology?
- How can local businesses consume geospatial technologies in an efficient manner?
- How can your industry benefit from the integration of 4IR and geospatial technology?
- How will geospatial technologies impact the green economy?

AGENDA

DAY 1

DAY 2

01

Opening Ceremony

01

The Power of Technology for Social Good

Network Coffee Break in Exhibit Area

02

Coffee Break

02

03

Embracing Smart Change .
How location is at the heart of the 4th industrial Revolution.

03

Panel: IOT Innovations and Technologies (AR/VR, Drones, Robotics, 3D Printing, etc)

NETWORKING LUNCH

04

NETWORKING LUNCH

04

05

Location Analytics & Business Intelligence: Transforming Businesses

05

Panel: Transition to a Green Economy

Network Coffee Break in Exhibit Area

06

Closing Panel: Our Digital Future

06

07

Panel: Powering Economic development through future generation technologies

07

RECEPTION in Exhibit Hall

MORE REASONS TO ATTEND

- Explore and Learn about how location intelligence can lead to profitable decisions.
- Unique Learning Experience
- Hear from experienced Speakers
- Hands on Experience
- Explore how to fully leverage Geospatial Technologies to meet your current and potential needs, from industry best practices to available regional support. Get the details as well as the bigger picture!
- Bring your Questions - Pose your questions to technical experts, have one-on-one discussions, brainstorm, solve problems, and address issues that will foster the development spatial technologies.
- Leave Equipped with Answers!
- Take a moment to relax and enjoy the networking events
- The Overall experience is not something to be missed!
